

Year 11

Summer Assessments 2021

Assessments after Easter

- All assessments will take place in your normal lessons as part of normal lesson time unless you have extra provision
- All assessments will take place under controlled conditions to make sure all work done is your own and done independently without support
- All assessments will be in similar format to how you would normally have been assessed in exams
- On the next slide is an overview of which assessments will be taking place over the first three weeks after Easter- your teachers will inform you of these as well as well as the content you need to revise
- You should usually have no more than 3 assessments in one day as a maximum
- If you are self-isolating you will be expected to still complete the assessment virtually on Teams

Please note that you may well do other questions in lessons that are not on this timetable so that teachers can collect more evidence to help inform the grade they will award.

Assessment dates after Easter

☐ Week 1
