

General introduction

We use the OCR exam board.

How will students be assessed

Students are assessed by completing two exams (90 mins) at the end of year 11.

Paper 1: Computer Systems

Paper 2: Computational Thinking, algorithms and programming

What are the Exam dates

The dates for the **mock exams** are...

Date: Wednesday 9th March

Time: Afternoon

Duration: 1hr30

Location: Sportshall

The papers will be marked and analysed after they are completed. There will be **parents evening Wednesday 30th March** when you can talk to subject teachers about how they have done, and about how they can improve further.

The final exam dates are:

Computer Systems - Monday 16th May: Afternoon:1hr30mins

Computational thinking and programming skills- Friday 27th May:Afternoon:1hr30mins

How can parents help plan for success in the GCSE exams?

Pupils have been given a revision guide and workbook. They should be using these to go over what they learnt in class and answer exam question in the workbook.

Best websites for GCSE Computing revision

Youtube: CraginDave j277 videos. These have been created with the OCR exam board in mind. They are short and concise and easy to digest.
