

MOCK EXAM – Complete mock exams which test your knowledge and understanding of the GCSE topics you have studied.

REVISION – Begin in-class revision to supplement the revision you are already completing in your own time and during intervention.

RESULTS – Your Geography journey at Westborough is now complete! Congratulations and good luck in your future!

YOUR FUTURE

Changing Economic World – Does the UK's changing economy provide more challenges or opportunities?

Pre-Release – A mystery topic for us to make a decision about, released by the exam board in March of your GCSE year.

GCSE EXAMS – Complete the 3 Geography exams.

Weather Hazards – The weather can be beautiful and deadly. Hurricanes don't affect us in the UK but that doesn't mean we're safe from the power of the weather!

YEAR 11

Changing Economic World – Explore the causes and impacts of the global development gap and strategies to reduce it. Investigate how Nigeria's changing economy is creating opportunities as well as challenges.

MOCK EXAM – Complete mock exams which test your knowledge and understanding of the GCSE topics you have studied.

REVISION – Begin in-class revision to supplement the revision you are already completing in your own time and during intervention.

Fieldwork – Design, carry and evaluate out two pieces of fieldwork, one human and one physical.

Climate Change – The causes, effects and responses to climate change. Understand the biggest issue of our time.

OPTIONS CHOICES – Decide whether or not to continue on your Geography journey towards the end of Year 9.

Rivers of the UK – Discover the features of our rivers and what created them, as well as how we can manage their destructive power.

Living World – Explore the locations, key characteristics, challenges and opportunities of the world's most exciting biomes! From the Thar Desert to the Amazon Rainforest!

Urban Issues – As a growing megacity, Lagos has both challenges and opportunities. Find out what these are and what they mean for the local people they affect most. Can London cope with the many challenges it faces? Are the opportunities there for everyone?

Coasts of the UK – Investigate the physical forces that have created the UK's dynamic coastlines.

YEAR 10

Nigeria – Discover the natural and human features of the Nigeria, its challenges, opportunities and the most controversial issues it faces.

Weather Fieldwork – How do we measure and predict weather? How do we complete geographical investigations?

Yorkshire – Find out what makes Yorkshire unique. Our spectacular landforms and interesting national parks are waiting to be explored!

Resource Management – Food, water and energy. Is there enough of each to go round? How can we manage what we have?

Tectonic Hazards – find out what causes tectonic hazards, the impacts they have and compare two contrasting earthquakes.

The United Kingdom – Discover the natural and human features of the UK, our challenges and our opportunities.

YEAR 9

Development – Explain the reasons for the gap between the world's poorest and richest and explore what can be done to fix it.

LBA Fieldwork – Leeds Bradford Airport is expanding, what are the impacts on West Yorkshire?

Climate Change – It is the biggest global health threat of the 21st century but what will this mean for us? Is it already too late?

Global Connections – The UK is more than an island. Find out how our global connections shape our daily lives.

Population and migration – We alive on a planet of well over 7 billion people. How did this happen and what problems does this cause?

Global Issues – Plastic, conflict, wilderness loss and tourism are having an impact on our planet. But how much of an issue? Should we be worried?

Africa vs. Asia – These two continents are rapidly developing but how do they compare?

Water Hazards – what happens when there's too much or too little and how can humans harness the natural power of water?

River Calder – The hills and valleys of Dewsbury were created by the River Calder, but does this river still influence our lives here?

Coasts and Sea Level Rise – The UK has over 12,000km of coastline, full of dynamic landforms. Find out how these are created through physical and human processes.

Planet Earth – Help David Attenborough plan the newest Planet Earth series and learn some new map skills at the same time.

TASTER DAY – Join us for an experience of a 'typical' day at Westborough High School.

OPEN EVENING – Come and discover the exciting opportunities that Geography at Westborough has to offer.

YEAR 7

Fantastic Places – Discover and explore some of the most interesting places our planet has to offer. From Dubai to Death Valley, get ready to explore!
